

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

Point, 1918; professor of military science and tactics.

Samuel A. Tenison, H.S., James Millikan University, 1914; assistant professor of physical education.

Roscoe G. Dickinson, S.B., Massachusetts Institute of Technology, 1915; Ph.D., California Institute of Technology, 1920; National Research Council Fellow; research associate in chemistry.

Clyde L. E. Wolfe, B.S., Occidental College, 1906; M.S., Occidental College, 1907; A.M., Harvard University, 1908; Ph.D., University of California, 1919; instructor in mathematics.

Ernest H. Swift, B.S., in chemistry, University of Virginia, 1918; M.S., California Institute of Technology, 1920; instructor in analytical chemistry.

Fred L. Poole, B.S., California Institute of Technology, 1918; M.S., Union College, 1919; instructor in electrical engineering.

Fred K. Converse, B.S., in mechanical engineering, University of Rochester, 1914; instructor in civil engineering.

Glen G. H. Bowlus, B.S., Purdue University, 1912; instructor in mechanical drawing.

James B. Friauf, A.B., University of Montana, 1918; instructor in physics.

#### THE HECKSCHER FOUNDATION FOR THE PROMOTION OF RESEARCH AT CORNELL UNIVERSITY

THE committee on general administration of the Cornell University board of trustees, on October 2, adopted a plan for the administration of the income from the Heckscher Foundation for the Promotion of Research in Cornell. August Heckscher gave Cornell University \$500,000 last summer as an endowment to promote research. The plan of administration is described in the following resolutions which the committee adopted:

That the income shall be used only for the promotion of research, including the publication of the results thereof.

That for the present the income shall not be used for permanent research professorships.

That the income shall not be used to increase the emoluments of any member of the teaching staff.

That the income shall not be used intentionally to promote investigation leading to patent rights or to the pecuniary benefit of the investigators through patent rights, or in any similar manner.

That for the administration of the foundation

there be established a council to be known as the Heckscher Research Council. This council shall consist of the president of the university, *ex officio*, as chairman; two trustees to be elected by the board of trustees whose respective terms as members of the council shall continue until the expiration of their then respective terms as trustees; the dean of the graduate school, *ex officio*; four members of the university faculty, two from each of the two groups known as the group of sciences and the group of letters as specified in Section 2 of Article XII. of the university statutes and relating to the university library; and two emeritus professors to be selected annually by the council.

The terms of the four faculty members to be elected by the groups of the faculty shall, at the first election, be for one, two, three and four years, respectively, and thereafter the term of each shall be four years.

All members of the council shall continue to hold office until their successors are elected.

This council shall, subject to the approval of the board of trustees, have general supervision of research under the Heckscher Foundation, the expenditure of the income of the fund, and all other matters pertaining thereto. The council shall report its recommendations from time to time to the board of trustees and upon the approval of the same the expenditure of appropriations shall follow the usual practise of the university.

The council shall call annually for requests for grants from individual investigators, or groups of investigators proposing to collaborate, but not from departments of the university as such, nor from colleges.

The council shall have power to establish and from time to time modify the rules and regulations governing its meetings and the details of appropriations.

The annual report of progress shall be made to the council by each investigator or group receiving a grant. An annual report to the board of trustees shall be made by the council and a copy thereof sent to the founder of the fund. A minimum of one hundred copies of all publications of the results of the investigations shall be delivered to the council for preservation in the university library and distribution under the direction of the council. A bound copy of such publications shall from time to time be transmitted to the founder.

#### AUSTRIAN METEOROLOGISTS APPEAL FOR AID

SEVERAL pathetic appeals from Austrian meteorologists or their families have been
